VENTRY® FAN or LENTRY® LIGHT SYSTEM Registration

Please register by completing this form and...

- ...faxing or mailing it to us (see above); or
- ...email it to us at info@ventry.com; or
- ...call (888) 257-8967 for us to type it directly into our registration list.

There are many good reasons to register your products, including:

- It helps ensure that you receive all applicable **free upgrades**.
- It helps ensure that the correct parts and upgrades are sent, if ever needed.
- It helps ensure that you can be reached in case of a recall or other safety concern.
- In case of loss or theft, identifying information will be on file to help with any insurance claims and police reports.
- It helps us notify you of new products and innovations from which you may benefit (we promise not to bombard you!)

You are welcome to register multiple units using the same form.

Where to Find Fan Numbers

VENTRY FANS, Gasoline and Propane

(A) The **Fan Number** is a four digit number stamped into the engine block near the oil drain plug. *Example: 4567*

(B) The **Motor Serial Number** is five letters, a dash, and seven numbers stamped into the engine just above the oil drain plug. *Example: GCAGT-1234567*

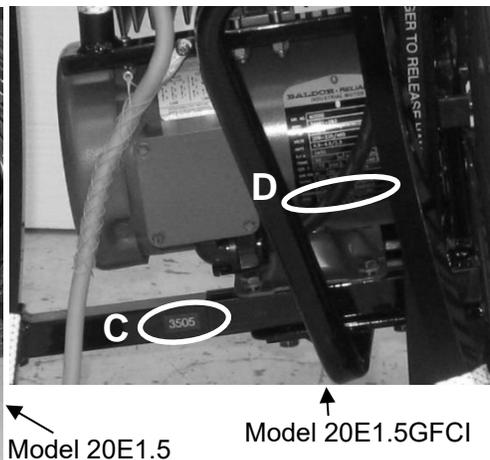

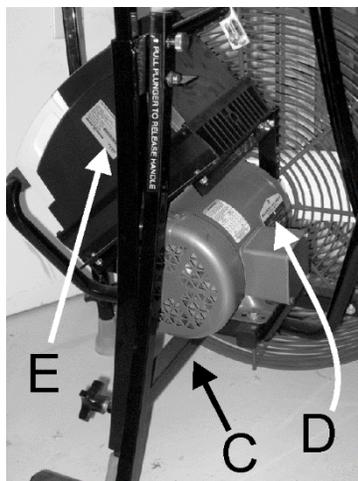

VENTRY FANS, Electric

(C) The **Fan Number** is on a label which is stuck to the black frame below the drive. *Example: 4567*

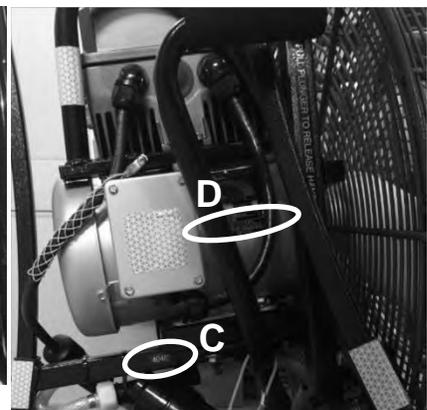

(D) The **Motor Serial Number** is found on a plaque, next to the letters "S/N". It is 11 digits, beginning with "W" or "F". *Example W0909101451*

(E) The **Controller Serial Number** is on a label on the side of the controller. It is the 11 digits underneath the barcode. *Example: 55145700004*

Model 20E1.5

Model 20E1.5GFCI

Model 20EM3550

LENTRY POWER & LIGHT UNITS

(G) The **Generator Serial Number** is on the side of the generator, near the bottom, on a sticker. It generally starts with four letters followed by 7 numbers. *Example: EZGA-1234567*

(H) The four-digit **LENTRY Frame Number** is underneath the generator, centered on the frame. It starts with the letter L then followed by three or four numbers. *Example: L345*
